📍 Kurla, Mumbai

Hard Skill

- I have done coding in following languages C++, Java, Python.
- Data Science - Used Flask
- HTML, CSS, JS
- Deployment on AWS, Microsoft Azure

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

- Institute of business research and studies
Bachelors of Computer Application (BCA)
Still going
Last Semester CGPA-9.0
- Ramniranjan Jhunjhunwala Autonomous College
HSC-72% Science
Completed in 2021
- ST. JOSEPH HIGH SCHOOL
SSC -78%

Completed in 2019

About Me

- Excellent logical, analytical and computational skills.
- Strong motivational and leadership skills.
- Ability to work under pressure.
- Ability to work individual as well as in team.
- Use the techniques, skills, and modern engineering tools necessary for engineering practice and implement them on existing software.

Projects

Web Scrapping:-

Web scraping is an automatic method to obtain large amounts of data from websites. Most of this data is unstructured data in an HTML format which is then converted into structured data in a spreadsheet or a database so that it can be used in various applications. I have used bs4 and Selenium libraries for that. I am sharing link of github repository:-

1] Flipkart Review Scrap-It takes the review of a particular range of product and gives it to customer so that it can help them to buy a efficient product.
